OUR GOALS

We have always felt a strong commitment to work hard to get outstanding trophies for our hunters. Most clients become life-long friends.

Constant change is a large part of trophy hunting. Winter weather, law changes, and many other factors come into play. We never conduct a trip unless we feel the outcome will be successful.

Our success can be attributed to hardworking, enthusiastic hunters, experienced guides, conservative bear management, and providing the proper equipment for various hunts, which includes tents, boats, motors, and of course some luck.

Hello, past & future Kodiak hunters,

One of the toughest decisions I have ever made is to turn my Kodiak bear hunting operation over to employees. Kodiak hunting was good 47 years ago, but it is incredibly good now for taking true giants. It is so much fun to find and take one of those old bears, that it makes the decision to turn my bear hunting over to employees even harder.

The good news is all the guides are the same, and the areas are the same. Two of the guides have been with me for 19 years and have been guiding hunters themselves for 12 years, and one has been guiding for me for 10 years.

Their experience to find and judge big bears is incomparable. They have all been following my protocol and system for years. I have remained in good health, but the calendar doesn't lie.

Jake, John and Lance deserve a chance to run their own hunts on Kodiak, and one couldn't find a more qualified group of men. Feel free to stay in contact
Dennis Harms,

Dennis Harms

2016 KODIAK BEAR HUNTING NEWS AND 2017 FORECAST

We took more all-time Boone & Crockett bears this year than ever, and as far as I know more than anyone else has in one year.

Kodiak weather was conducive to good hunting both spring and fall season this year.

I don't know when it will stop, but a combination of land management by the Kodiak national wildlife refuge and Alaska department of fish and game has created a system that increasingly bigger bears are being harvested over the last 40 years.

Feel free to email
or call me, Jake or
Lance.
