GIANT KODIAK BEAR • APRIL, 2015 • SKULL 28 3/16 ADFG

OUR GOALS

We have always felt a strong commitment to work hard to get outstanding trophies for our hunters. Most clients become life-long friends. Constant change is a large part of trophy hunting.

Winter weather, law changes, and many other factors come into play. We never conduct a trip unless we feel the outcome will be successful.

Our success can be attributed to hardworking, enthusiastic hunters, experienced guides, conservative bear management, and providing the proper equipment for various hunts, which includes tents, boats, motors, and of course some luck.

**"NOW IS THE
BEST TIME EVER
TO HUNT GIANT
KODIAK BROWN
BEAR. GIVE US A
CALL TODAY!"**

KODIAK HUNTERS 2015

8 HUNTERS/ 6 BEARS

1 all time Boone & Crockett bear

3 yearly Boone and Crockett bear

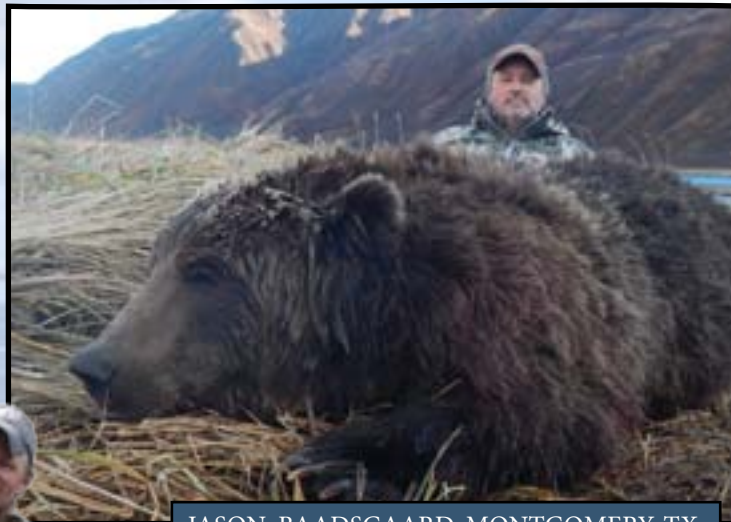

Skull: 28-3/16" Skull: 24-1/16"

Skull: 27-11/16" Skull: 20-2/16"

Skull: 27-5/16" Skull: 27-15/16"

Skull: Alaska Fish & Game measure.
Boone & Crockett can be 0.5"
larger due to different method
of measurement. Hide
measurement can be very
inexact,
so we only measured
skulls this year.

2015 KODIAK BEAR HUNTING NEWS AND 2016 FORECAST

I am amazed at the high population of bears on Kodiak. This fall one day I saw 32 different bears. That being said, you need to hunt hard to get a giant old male bear. They don't get big being dumb.

Weather is a huge factor in hunting Kodiak. This spring the weather was poor the first half of the first hunt. The weather turned nice we took several bears in a short period of time on the last few days of the first hunt and the first few days of the second hunt.

A combination of land management by the Kodiak National Wildlife Refuge and game management by the Alaska Department of Fish and Game has made Kodiak one the great places in the world to hunt.
